

BIOPOINT™

PREMIUM BIOLOGICAL

GUARDIAN

REDUCE PLANT STRESS | PROTECT AND ENHANCE GENETIC POTENTIAL

BioPoint™ Guardian by NexStar Crop Performance™ is a first-pass solution specifically formulated to protect and reduce yield loss of crops under abiotic stress conditions.

By combining nutrients with stress mitigation ingredients, BioPoint™ Guardian allows growers to see more value in the nutrients made available to the plant.

PRODUCT BENEFITS

Protects a farmer's investment during critical growth stages
Shields impact of abiotic stresses, securing increased yield potential

Promotes vegetative and reproductive growth during key rain events on stressed acres

STRESS MITIGATION VALUE

L-Proline: an anti-stressor (osmotic regulator) amino acid accumulated by plants to fight off abiotic stresses. Plants primed with Proline are tolerant to stress before the event occurs. Proline is an antioxidant that regulates the balance of active oxidation in plant cells through a synergistic relationship.

Phenolic Acid Compounds: metabolites play an important role as local or systemic resistance builders in protecting plants against pathogens. Phenolic Acid compounds are more potent than humic and fulvic as they are naturally released from the plant's seeds, roots, and/or residue decomposition to improve tolerance to stress and signal cell wall growth.
