

BIOPPOINT GUARDIAN

GENERAL INFORMATION

BIOPPOINT™ GUARDIAN is specifically formulated to protect and reduce yield loss of crops under abiotic stresses conditions such as drought, low or high temperature, deficient or excessive water, high salinity, heavy metals, and ultraviolet radiation.

RATE RECOMMENDATIONS

FOLIAR APPLICATION

Apply 1 qt/acre and repeat as needed. BIOPPOINT GUARDIAN is more effective if applied prior to stress events or during rapid vegetative growth stages. Application may also be beneficial during early to mid-flowering growth stages.

MIXING AND HANDLING INSTRUCTIONS

Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application.

ATTENTION: This product contains boron; use on any crops other than those recommended may result in serious injury to the crops. The application of fertilizing material containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals. Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.html>

Information about the components of this lot of fertilizer may be obtained by writing to NexStar Crop Performance and giving the lot number which is found on the container or label.
