

# SPRAYPOINT™

## PREMIUM ADJUVANT

# GROUND ZERO

### PRODUCT BENEFITS

- Increases herbicide performance by acting as a water conditioner
- Increases absorption into the plant's phloem through the leaf cuticle
- Decreases antagonism due to calcium ion mineralization

### SPEED & EFFICIENCY

SprayPoint™ Ground Zero speeds up the breakdown of crop residue—creating the ideal environment for today's high speed planters. The microbes and high-carbon formulation of SprayPoint™ Ground Zero demolishes residue so consistent planting depth and seed spacing can be achieved.

### IMPROVE STAND COUNTS IN REDUCED-TILLAGE

By not having residue pinned in the furrow, soil to seed contact will be improved, giving every seed the best chance for even emergence.

### BRINGS FIELD-AVAILABLE NUTRIENTS TO YOUR CROP

The high carbon source and blend of 6 proprietary microbes in SprayPoint™ Ground Zero stimulate and fortify biological activity, releasing field-available nutrients from crop residue. Initial data indicates increases of up to 30-40 lbs N, 5-10 lbs P and 35-40 lb K in the crop following SprayPoint™ Ground Zero application.

### PRODUCT AVAILABILITY

Available in both 2.5 gallon jugs and 250 gallon totes.

## SPRAYPOINT™ GROUND ZERO COMBINES TWO GREAT PRODUCTS INTO ONE
