

SAFETY DATA SHEET

ISSUING DATE: 12/18/2017

1. PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: SPRAYMS
UNITY#: 1675566
DESCRIPTION: Agricultural Adjuvant.

DISTRIBUTED BY: NexStar Crop Performance
P.O. Box 151 1949 N. Linn Ave.
New Hampton, IA 50659

Non-Emergency 1-641-394-6004
Business Inquiries: Mon - Fri 7:30am – 3:30pm (CST)

EMERGENCY PHONE NUMBERS:

For Medical Emergencies Call: 1-877-424-7452 (24 hrs)

For Chemical Emergencies involving spill, leak fire, exposure, or accident call:
CHEMTREC (800) 424-9300 (24 hrs)

2. HAZARDS IDENTIFICATION

This chemical is considered hazardous according to the OSHA Hazard Communication Standard 2012 (29 CFR 1910.1200).

Classification: Eye Irritation: Category 2B

Signal Word: WARNING

Pictogram: No pictogram required.

Hazard Statement(s):

Causes eye irritation.

Precautionary Statement(s)

Prevention:

Wash hands, face, and other affected areas thoroughly after handling.

Response:

IF IN EYES: Rinse cautiously with water for 15 minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists. Get medical attention.

Storage:

See Section 7 for information on storage.

Disposal:

See Section 13 for information on disposal.

Other Information:

May be harmful if swallowed, inhaled or in contact with skin.

Causes mild skin irritation.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Components	CAS Number	Percentage
Proprietary blend of water conditioning agent(s)/surfactant(s)/polymer	N/A	100%

4. FIRST AID MEASURES

EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice if irritation persists.

SKIN: Rinse skin with plenty of soap and water for 15-20 minutes. Call a doctor/physician if irritation occurs. Remove contaminated clothing and wash it separately before reuse.

INHALED: After vapor exposure, remove to fresh air. Call a physician if breathing difficulties or irritation persists.

INGESTION: Call a poison control center or doctor if you feel unwell. Have the person rinse mouth with water. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If medical advice is needed have the product container or label at hand.

5. FIRE FIGHTING MEASURES

EXTINGUISHING MEDIA: dry chemical, foam or carbon dioxide (CO₂).

FIRE FIGHTING PROCEDURES: Fight fire from a safe distance and protected location. Fight fire upwind to avoid hazardous vapors and decomposing products. Heat may build pressure and rupture closed containers, spreading fire and increasing the risk of injury. Water may be ineffective in fire fighting. Use water spray/fog for cooling containers and firefighters. Notify proper authorities if liquid material enters the sewer or public waters.

FIRE FIGHTING EQUIPMENT: As with any fire, wear self-contained breathing apparatus pressure demand, (MSHA/NIOSH approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

SPILL AND LEAK RESPONSE: Uncontrolled releases should be responded to by trained personnel using pre-planned procedures. Proper protective equipment should be used. In case of a spill, clear the affected area, protect people, and respond with trained personnel.

PERSONAL PROTECTIVE EQUIPMENT: For incidental releases use impermeable gloves,

goggles, face shield, and appropriate body protection. In the event of a large release, use impermeable gloves, chemically resistant suit and boots, and hard hat. Self-Contained Breathing Apparatus or respirator may be required where engineering controls are not adequate or conditions for potential exposure exist. When respirators are required, select NIOSH/MSHA approved based on actual or potential airborne concentrations in accordance with the latest OSHA and/or ANSI recommendations.

ENVIRONMENTAL PRECAUTIONS: Stop spill at source. Construct temporary dikes of dirt, sand, or appropriate readily available material to prevent spreading of material. Close cap or valves and/or block or plug hole in leaking container and transfer to another container. Keep from entering storm sewers and ditches which lead to waterways, and if necessary, call the local fire or police department for immediate assistance.

CONTAINMENT AND CLEANUP: Spilled material is slippery. Neutralize spill with soda ash or lime. Absorb spilled liquid with polypads or other absorbent materials. Clean up with non-combustible absorbent (such as sand or soil). Shovel up and place all spill residue in suitable containers. Use detergent if needed. Dispose of at an appropriate waste disposal facility according to current applicable laws and regulations and product characteristics at time of disposal.

7. HANDLING AND STORAGE

HANDLING: Follow all SDS/label precautions when using this product. Read the entire product label before use. Do not reuse the container. Avoid breathing fumes, mist, vapors, or spray. Use only in a well-ventilated area. Wear personal protective equipment. Avoid contact with eyes, skin and clothing. Remove and wash contaminated clothing separately before using. Practice good hygiene after using this material especially before eating, drinking smoking, using the toilet, or applying cosmetics. Immediately clean up spills that occur during handling. Keep container tightly closed when not in use.

STORAGE: Store in a well-ventilated area, away from children, food and feed products. Store product in original container only. Keep the container closed when not in use. Do not allow other chemicals to be introduced into the container.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

ENGINEERING CONTROLS: Facilities storing or utilizing this material should be equipped with an eyewash station, safety shower, and adequate ventilation.

Ventilation System: A system of local and/or general exhaust may be necessary to keep employee exposures below the Airborne Exposure Limits. Local exhaust ventilation is generally preferred because it can control the emission of the contaminant at its source, preventing dispersion of it into the general work area. Please refer to the ACGIH document, Industrial Ventilation A Manual of Recommended Practices, most recent edition, for details.

RESPIRATORY PROTECTION: Avoid high concentrations of vapor and/or mist. Use local exhaust if available or use NIOSH/MSHA approved organic vapor respirator as necessary.

EYE PROTECTION: Wear OSHA standard chemical splash goggles or face mask; avoid eye contact at all times. Contact lenses are not protective devices.

SKIN PROTECTION: Clean, body-covering clothing should be used. Use impervious gloves such as neoprene. Avoid prolonged and unnecessary skin contact with product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Hazy liquid
pH (neat)	5.5 – 7.5
Freeze / Melting Point	Not Determined
Boiling Point / Range	Not Determined
Specific Gravity (25°C)	1.15 – 1.25
Flash Point	> 93°C
Color (Gardner)	Not Determined
Solubility in Water	Soluble
Viscosity, kinematic (25°F)	Not Determined
Odor Threshold	Not Determined
Evaporation Rate	Not Determined
Upper / Lower Flammability Limits	Not Determined
Vapor Pressure	Not Determined
Vapor Density	Not Determined
Partition Coefficient	Not Determined
Auto-Ignition Point	Not Determined
Decomposition Temperature	Not Determined

10. STABILITY AND REACTIVITY

CHEMICAL STABILITY: Stable at ambient temperatures and atmospheric pressure.

CONDITIONS TO AVOID: Oxidizing materials.

HAZARDOUS DECOMPOSITION: Combustion will produce carbon oxides, nitrogen oxides, and other products of incomplete combustion.

HAZARDOUS POLYMERIZATION: Will not occur.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity – based on product composition

LD ₅₀ Oral	> 5,000 mg/kg
LD ₅₀ Dermal	> 5,000 mg/kg
	4 of 6

Inhalation LC₅₀ (dust/mist) > 5.0 mg/L/4hr
Inhalation LC₅₀ (vapor) > 20.0 mg/L/4hr

Eye Effects – Contact with product will cause eye irritation. Avoid eye contact with product at all times.

Skin Effects– Contact with product may cause mild skin irritation and may be harmful if absorbed through the skin. Avoid prolonged and unnecessary skin contact with the product.

Inhalation Effects –Inhaling concentrated vapors may be harmful and may cause nasal and respiratory tract irritation. Overexposure by inhalation may cause headache, nausea, weakness, and lightheadedness.

Oral Effects – May cause burning pain in mouth, throat, and abdomen and coughing and constriction of the throat, followed by nausea, vomiting, and diarrhea. Do not taste or swallow product.

Chronic exposure: no data available

Aggravation of pre-existing conditions: no data available

Specific Target Organ Toxicity – Single Exposure: no data available

Specific Target Organ Toxicity – Repeated Exposure: no data available

Germ Cell Mutagenicity: no data available

Reproductive Toxicity: no data available

Aspiration Hazard: no data available

12. ECOLOGICAL INFORMATION

ENVIRONMENTAL DATA: No information available.

13. DISPOSAL CONSIDERATIONS

DISPOSAL METHOD: Do not contaminate water, food, or feed by disposal.

PRODUCT DISPOSAL: Disposal of contents/container must be in compliance with local, state, and federal laws and regulations (contact local or state environmental agency for specific rules).

EMPTY CONTAINER: Do not reuse container. Triple rinse and recycle the container or dispose of in accordance with Federal, state and local laws and regulations. Empty containers must be handled properly due to product residue. See the product label for further information on disposal of the product container.

14. TRANSPORTATION INFORMATION

SHIPPING DESCRIPTION: Not regulated for ground transportation by US DOT

15. REGULATORY INFORMATION

SARA TITLE III (Superfund Amendments and Reauthorization Act):

311/312 Hazard Categories – None.

313 Reportable Ingredients - To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.

302/304 Emergency Planning – To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.

CALIFORNIA SAFE DRINKING WATER & TOXIC ENFORCEMENT ACT

(PROPOSITION 65): This product contains no chemicals known to the state of California to cause cancer or reproductive toxicity.

TRACE ELEMENTS: Trace ingredients (if any) are present in < 1% concentration (< 0.1% for potential carcinogens, reproductive toxins, respiratory tract mutagens, and sensitizers). None of the trace ingredients contribute a significant additional hazard at the concentrations that may be present in this product. All pertinent hazard information has been provided in this document, per the requirements of the Federal Occupational Safety and Health Administration Standard (29 CFR 1910.1200), US State equivalents, and Canadian Hazardous Material Identification System Standard (CPR 4).

16. OTHER INFORMATION

ISSUING DATE: December 18, 2017

REASON FOR ISSUE: Initial

DISCLAIMER OF LIABILITY: NexStar Crop Performance makes no warranty, representation or guarantee as to the accuracy, sufficiency or completeness of the material set forth herein. It is the user's responsibility to determine the safety, toxicity and suitability of the use, handling and disposal of this product. Since actual use by others is beyond our control; no warranty, expressed or implied, is made by NexStar Crop Performance as to the effects of such use, the results to be obtained or the safety and toxicity of this product, nor does NexStar Crop Performance assume liability arising out of the use by others of this product referred to herein. The data in this SDS relates only to the specific material designated herein and does not relate to use in combination with any other materials or in any process.
